SELECTED WORK / 01

Communication support pathway

P1 | Jan 2025 - Jun 2025 | FICTIONAL WORK EXAMPLE

Context. Fictional internal work programme in psychological services, rehabilitation and person-centred support; not a real client case study.

Problem. Families received inconsistent explanations of service goals.

Objective. Create a workable response to this issue through communication assessment, explicit review criteria and practical documentation. Agree the boundaries before execution and retain unresolved points for follow-up.

Contribution and ownership. Speech and Language Therapist; owned the stated workstream, not the full organisation or every collaborator contribution.

- Structured collaborative planning and review notes.
- Prepared the scope with the commissioning team, identified unresolved inputs and used communication assessment to turn the brief into a sequenced work package.
- Applied therapy planning and accessible communication while coordinating reviews with the designated owner. Kept decision notes so collaborators could separate facts, assumptions and changes.
- Assembled the handover material, explained open limitations and agreed which items needed further review rather than presenting them as completed.

Methods. communication assessment / therapy planning / accessible communication / family guidance

Deliverables. Communication support pathway - scoped brief; Communication support pathway - reviewed working package; Communication support pathway - handover and learning summary

Review. Reviewed the scoped output against the agreed brief, recorded exceptions and checked that key conclusions could be traced to observations. The review package calls for a synthetic support-plan template and a named human reviewer.

Illustrative outcome: the team adopted a repeatable approach for communication support pathway, with clearer ownership and reviewable records. This is a fictional qualitative result; no real performance measurement or external acceptance evidence is supplied.

Suggested evidence (not supplied): synthetic support-plan template; supervision and service-review framework; accessible information or handover record.

SPECIALIST PRACTICE

Care safeguards

The sample focuses on communication assessment, therapy planning, accessible communication. Approvals, supervision and specialist input are identified in each work package; work outside this scope is referred to the designated responsible person.

Peer learning and practical guidance. Created short examples on communication assessment and family guidance for colleagues. Separated personal preferences from agreed team procedures and recorded useful questions.

Review and handover discipline. Facilitated practical reviews of accessible communication resources, ensuring that unresolved issues retained a named owner rather than disappearing from final presentations.

Sample degrees do not establish clinical eligibility or registration. No real case, diagnosis, therapy advice or patient outcome is represented.

SELECTED WORK / 02 AND 03
